Students,

Good morning. Welcome to week 2 already. Hope everyone had a good first week. Here are some announcements for this week. In addition, to let you know the weekly info’s will be on our website, so that you can refer back to them as needed.

**Add/Drop Deadline:**
Starting this week to add a class you will need the Departmental approval and the last day to add a class will be on Sunday, October 10. The last day to drop a class was yesterday, Sunday, October 3. Now if you drop a class, it will become a withdrawal and the W will be on your transcript, but not factored into your GPA. Also, your tuition will be reduced for withdrawing the next two weeks. The last day to withdraw will be at the end of the 7th week and I will send that date out later.

**Job/Internship Posting Information:**
When conducting your job or internship search it is important to be aware of any possible misrepresentations that may exist. Therefore, we encourage you to read the following information so that you avoid any unfortunate situations.

Oregon State University College of Agricultural Sciences (CAS) makes no representation, warranty or guarantee about the positions listed. CAS does not prescreen employment or internship opportunities that are submitted. By using the resources available, you are assuming full responsibility for your safety, security, wages, working conditions, fraudulent, or other aspects of any off-campus employment/internship opportunities that you discover while using CAS resources.

**7th Annual Agricultural Career Fair & Student Showcase:**

Join us for the 7th annual Agricultural Career Fair & Student Showcase. Whether you want to learn about student research and global opportunities, see what your peers are doing, explore possibilities for your future career, or look for jobs and internships, this event is for you. First year through Ph.D., all majors and grad programs invited to attend. Students in disciplines such as horticulture, crop and soil science, agricultural science, food science, fisheries and wildlife, animal science, agriculture business management, environmental economics and policy, bioresource research, botany, sustainability and more will not want to miss this event!

*Are you inspired to grow things, raise animals, improve our environment, build sustainable food systems, or apply business to agriculture? See what career, internship and research ideas this event can spark for you.*

- CONNECT with a variety of employers interested in visiting with CAS students including, USDA Natural Resource Conservation
Service, Beef Northwest, KWS Seeds, Coleman Agriculture, NW Farm Credit Services, and more.

- **ENGAGE** - see research posters from College of Agricultural Sciences students and learn how to get involved yourself. Beginning researchers, Continuing research students and summer Branch Experiment Station, URSA research opportunities, CAS Leadership Academy and OSU Global Opportunities!

- **NETWORK:** All majors, undergraduates and grad students welcome! Come and go on your schedule.

**Thursday, Oct. 21**
10 a.m. to 2 p.m. PT
Come and go as your schedule allows
Memorial Union Ballroom *In-Person*

**How Do I Prepare for the Agricultural Career Fair & Student Showcase?**
The Career Development Center offers lots of great resources that can help you get ready such as networking tips, career fair advice, resume samples and checklists, same-day resume appointments, an online resume reviewing tool and more at [https://career.oregonstate.edu/students](https://career.oregonstate.edu/students). You can also attend a virtual workshop called "Prepare for the Agricultural & College of Forestry Career Fairs" on Monday, Oct. 18, 12 noon to 1 p.m. PT, the week of the career fair.

**Internship Opportunity:**
Benton County’s Sustainability Program is pleased to announce we are hiring a paid Climate Action Intern that will run through at least March, 2022. As background, Benton County has a clear carbon emissions reduction goal, annually calculates the County government’s carbon emissions, and is currently updating our Climate Action Plan. The Internship will be instrumental in calculating County greenhouse gas emissions, researching carbon mitigation opportunities, and assisting on our Climate Action Plan.

The application is attached, and the deadline is October 15.

**Natural Sciences, Earth, & Environmental Career Fair:**
I wanted to share the slide with you for the Natural Sciences, Earth, & Environmental Career Fair coming up on Oct. 19. See a list of employers who’ve registered so far. It’s a great group. I think it’ll appeal to students in majors such as fish and wildlife, sustainability, bioresource research, and environmental economics and policy in
particular. The nice thing about this fair is that it's virtual this year, so students near and far can attend. I plan to pass out or mail some posters and fliers for this fair. I have some majors and buildings in mind for those, but don’t hesitate to email me if you in particular want some materials to promote this event to your students.
Bonneville Power Administration

Bureau of Land Management - Yaquina Head OMA

Concordia University, St. Paul - Portland 16 Month Post Bachelors of Science in Nursing Program

EDP Renewables North America

IE3 Global International Internships

Interfor

National Ecological Observatory Network (NEON) - BEI

Northwest Youth Corps

Oak Ridge Institute for Science and Education - National Energy Technology Laboratory

Oregon Department of Fish and Wildlife

Oregon Parks and Recreation Department

Oregon State University Graduate Business Programs
That is all I have for now. Have a great week.
