Students,

Good morning. Hope you had a good weekend and a good first week. Here are some announcements for this week.

Registration is now complete. The only other deadlines coming up for this term is the last day to withdraw from a class or change to S/U grading.

**Last day to change to S/U grading or withdraw from a course:**
The deadline is Friday, May 19. You can withdraw online. To change to S/U grading please see the link below.
https://registrar.oregonstate.edu/change-grading-basis

**My Degrees:**
I have now went through and updated everyone's My Degrees. Please review and let me know if you see something that I might have missed. Thank you.

**Summer Term Registration:**
Summer Term registration begins today, April 17. You don't need a PIN number, this will be a first-come first-served basis. If you have any questions, please let me know.

**Graduating Seniors:**
There will be a live event this year, see the link below. It will let you know when you should apply for commencement and when the Grad Fair is happening which is this week tomorrow, Tuesday, April 18 and Wednesday, April 19 at the OSU Beaver Store.

**Job/Internship Posting Information:**
When conducting your job or internship search it is important to be aware of any possible misrepresentations that may exist. Therefore, we encourage you to read the following information so that you avoid any unfortunate situations.
Oregon State University College of Agricultural Sciences (CAS) makes no representation, warranty or guarantee about the positions listed. CAS does not prescreen employment or internship opportunities that are submitted. By using the resources available, you are assuming full responsibility for your safety, security, wages, working conditions, fraudulent, or other aspects of any off-campus employment/internship opportunities that you discover while using CAS resources.

**Spring Term Career & Internship Fair:**
This will be held on Wednesday, April 19 from 11am -3pm at the CH2M Hill Alumni Center. See attached flyer for more events.

**ORISE Research Position at EPA's National Center for Environmental Economics**
EPA Fellowship: Assessing the Benefits and Costs of Environmental Policies and Climate Change
ORISE Research Participation Program
National Center for Environmental Economics
U.S. Environmental Protection Agency
Washington, DC

Project Description:

EPA's National Center for Environmental Economics (NCEE) is accepting applications for a research training opportunity through the Oak Ridge Institute for Science and Education (ORISE) Research Participation Program for the U.S. EPA. For more information and to apply, please see https://www.zintelllect.com/Opportunity/Details/EPA-OP-NCEE-2023-03. The application deadline is 5/1/2023. The initial appointment is for one year (with possible renewal) beginning summer 2023.

The participant will join NCEE economists in analyses and research efforts in environmental economics. The selectee will participate in research to improve our understanding of how the world-wide physical impacts of climate change manifest into economic measures in ways that can be incorporated into economic models used to estimate the SC-GHG. The participant will also be involved with NCEE economists on research projects that will improve methodologies to assess the benefits and costs of environmental policies that improve water and air quality. The participant may also engage in research examining the potential role that voluntary programs have played in participant actions to improve environmental outcomes. Allocation of time across the different components of the project is flexible. The participant will also have the opportunity to participate in additional research projects that are mutually beneficial.

This research training opportunity will provide an exceptional professional development opportunity. The candidate will have access to a team of experts collaborating in various areas of environmental economics on high priority issues of critical importance to EPA’s mission. NCEE is EPA's center of expertise for cutting-edge research and analysis in environmental economics (www.epa.gov/economics) and supporting science.

Qualifications:
U.S. citizenship required. Applicants should have received a bachelor's degree in economics or another relevant fields (within five years) or be currently pursuing the degree with degree completion by September 1, 2023.

Prefer candidates with strong quantitative skills and experience using data analytic software (e.g., STATA, Matlab, or R) for data management and analysis, as well as understanding of economics.

The participant will receive a monthly stipend commensurate with educational level and experience. This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and EPA. Participants do not become employees of EPA, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

That is all I have for now.

Have a good week.

Tjodie
