Dear students,
We recently received the following from the Director of Energy Supply Management, Operations, and Reliability for PacifiCorp Energy:

PacifiCorp is a division of Berkshire Hathaway Energy and my business unit is headquartered in Portland, Oregon. Training for this position will be in NE Portland however, once trained, we are currently in the process of moving to a remote/hybrid work environment and this position will likely be able to locate anywhere within 1 hour of approved PacifiCorp facilities, i.e. Salt Lake City, Bend, Park City, Casper and the list goes on. This is an entry level position but I can conservatively estimate a base salary of $72K and annual bonus and overtime of an additional $30K. I have 3 openings, one from a retirement and 2 from internal promotions. I am quite successful at mentoring, training and promoting fresh talent.

An description of this job can be found on a video clip posted on youtube.com from the BBC TV Series: Britain from Above

Here is the posting:

Harvest Capital is hiring for two positions - we're looking to fill both as soon as possible but would certainly entertain a graduating senior who would be available full time starting in June. While the applications do show requirements of several years of experience please don't let that stop a qualified applicant. We can teach them what they need to know!

Loan Closer / Processor - https://boards.greenhouse.io/harvest/jobs/4120035

That is all I have for now.

Have a good week.
